

We want to Help You Open a Sustainable Childcare Business!

With our help, you can:

- become a registered or licensed child care provider
- design and market your program with a professional website
- manage and grow your enrollments
- get access to the Wonderschool tools to run your program more efficiently

Wonderschool specializes in helping parents, teachers, or anyone who loves working with children to turn their homes into family child care programs. We understand that starting your own business can be challenging, which is why we developed a structured training program: an 8 week Zoom course to help you get started and grow your registered or licensed child care. Even better - it is **absolutely free!**
